DISCLAIMERS

IMPORTANT NOTE:

1. This insurance placemat has been produced by Propel Product Management on behalf of PIAS, and is solely meant for FA Representatives of PIAS as a quick reference and not meant to be reproduced in any manner.
2. The placemat encompasses only relevant approved products by PIAS only. It is an overview of similar product category based on prescribed age and for standard lives.
3. The information is obtained from the latest policy illustrations and product information provided by the relevant life insurance product providers. PIAS and Propel shall not be liable for any damages, or in any other way whatsoever, for errors of fact on the placemat and no warranty or representation is given to this effect. In the event of any discrepancy, the insurance product provider's authorized documents shall apply.
4. This placemat is not meant to be construed as an offer or solicitation by FA Representatives for the purchase of any life insurance plan nor is it meant for switching from one product to another which may be detrimental to prospects or clients. FA Representatives are to undertake a proper fact-find and risk profiling analysis with customers to provide each prospect or client with quality advice and appropriate recommendations based on the prospects' or clients' investment objectives, financial situation and particular needs.

Source: This information is from all providers of PIAS and is accurate **as of 26 Feb 2024**.

Disclaimer: All references and recommendations made are based on PIAS suite of products in this category only.

Company	Plan name	What we like about the plan
Singlife	Singlife Maternity Care (previously known as MyMaternityPlan)	<ul style="list-style-type: none"> - Relatively comprehensive coverage with more conditions covered for Hospital Care Benefit for the insured mother - Covers as many as four babies in a single pregnancy, even if it is through In Vitro Fertilisation (IVF), the highest in the market - Outpatient phototherapy benefit for child - Stem cell treatment benefit for child - Developmental delay benefit for child - Option to purchase a new whole life plan for the child within 90 days from the birth of an insured child without medical underwriting
NTUC Income	Maternity 360	<ul style="list-style-type: none"> - Standalone product and does not have to be bundled with a basic policy. - Outpatient phototherapy benefit for child - Mother is entitled to buy a new policy (Star Secure / Gro Sure Saver) for the insured child based on a simplified health declaration
Manulife	ReadyMummy	<ul style="list-style-type: none"> - Standalone product and does not have to be bundled with a basic policy. - Relatively comprehensive coverage with more conditions covered for pregnancy complications for insured mother and congenital illness for insured child - Outpatient phototherapy benefit for child - Covers as many as two babies in a single pregnancy, even for In Vitro Fertilisation (IVF) cases - Pays 10% of the sum insured if the life insured (mother) is diagnosed with Major Depressive Disorder (MDD) or Generalized Anxiety Disorders (GAD) - Option to purchase a LifeReady Plus including Early Critical Care Rider (II) and Critical Care (II) Rider (if any) for the new born child without medical underwriting
