DISCLAIMERS

IMPORTANT NOTE:

- 1. This insurance placemat has been produced by Propel Product Management on behalf of PIAS, and is solely meant for FA Representatives of PIAS as a quick reference and not meant to be reproduced in any manner.
- 2. The placemat encompasses only relevant approved products by PIAS only. It is an overview of similar product category based on prescribed age and for standard lives.
- 3. The information is obtained from the latest policy illustrations and product information provided by the relevant life insurance product providers. PIAS and Propel shall not be liable for any damages, or in any other way whatsoever, for errors of fact on the placemat and no warranty or representation is given to this effect. In the event of any discrepancy, the insurance product provider's authorized documents shall apply.
- 4. This placemat is not meant to be construed as an offer or solicitation by FA Representatives for the purchase of any life insurance plan nor is it meant for switching from one product to another which may be detrimental to prospects or clients. FA Representatives are to undertake a proper fact-find and risk profiling analysis with customers to provide each prospect or client with quality advice and appropriate recommendations based on the prospects' or clients' investment objectives, financial situation and particular needs.

Automatic Premium Spread/Dollar Cost Averaging Feature to Spread the Premium Allocated into Index Account		an Index Segment in each month, over the next 12 months Can be opted in or opted out before policy issuance and at any time after Policy Year 1, except when the policy is in	If Dollar Cost Averaging is selected, policyowner can elect to allocate funds to any of the sub-account of the Index Account on a monthly basis, over the number of instalments specified by the policyowner.
		lapse pending status. Any change in Automatic Premium Spread (opt-in or opt-out) will only apply to future amount allocated to Index Account.	
Account Value/Policy Value	- Equals to the sum of account values of Fixed Account and Index Account.	Accumulation of Value/Interest Crediting - Equals to the sum of values in Fixed Account and Index Account. Master Holding Segment and Individual Holding	- Equals to the sum of values in Fixed Account, Index Account and Holding Account.
Account value) only value	Premium Charge will be deducted before net premium is allocated into the Fixed Account and Index Account based on the policyholder's chosen net premium allocation. On the policy effective date and every monthly anniversary date, monthly charges will be deducted from the	Segment are treated as one of the segments within index Account. Macro Houng Segment are individual Holding Segment and Individual Holding Segment and each Segment under respective Index Sub-accounts, Master Holding Segment, Individual Holding Segment and each Segment under respective Index Sub-accounts on a pro-rata basis, in accordance with the value of each account/Segment against the Policy Value.	- Monthly Charges will be deducted at each Policy Monthiversary.
Fixed Account / General Account Crediting Rates	Interest is calculated based on Fixed Account value and accrues on a daily basis and credited on a monthly basis. - Current crediting rate: 4.25% - Minimum crediting rate: 2.86 - The crediting rate in subsequent years will not be less than the minimum guaranteed crediting rate at 2% - During the 1st Policy Year, Lock-in Guaranteed Crediting rate = Current crediting rate	Interest is calculated based on Fixed Account value and accrues on a daily basis and credited on a monthly basis. - Current crediting rate: 4.2% - Minimum crediting rate in the 1st Policy Year will not be lower than the current crediting rate at policy issuance. - During the 1st Policy Year, the crediting rate = max (current crediting rate at issue, current crediting rate)	Earns a crediting interest rate (CIR) on a daily basis and credited on each Monthly Policy Date: - Policy Year 1: Lock-in Crediting Interest Rate of 4.10% p.a. - Policy Year 2 onwards: CIR will be declared from time to time with a Guaranteed Minimum CIR of 2% p.a. for the first 10 Policy Years and thereafter, 1.50% p.a.
	- Interest rate is calculated based on the point-to-point percentage change in the underlying Index' market value ("Index Difference"), on the Segment Maturity Date as compared to the Segment Start Date, subject to the applicable Segment Floor Rate at 0% and Segment Cap Rate at 3% (current at 11%) under each Index Subaccount. No interest will be credited if the Policy is terminated prior to any Segment Maturity Date.	- Interest is calculated based on the performance of each index, and credited at the end of the 1-year Segment Term (on Segment Maturity Date). - Minimum crediting rate: 0% minimum Floor Rate (protects the policy from negative index returns) - Current crediting rate a) Annual performance of underlying index, point-to-point, excluding dividends. b) Subjected to the applicable Cap Rate c) Guaranteed Minimum Cap Rate = 3% - Note that the sub-account of the policable Cap Rate C) Guaranteed Minimum Cap Rate = 3% - Index Sub-account	It consists of 4 sub-accounts. Each sub-account comprises Segment(s) that can earn Index Interest on the Segment Maturity Date. The underlying Indices, index weightage and current Cap Rates of the sub-accounts are: Allocation % Current Cap Rate
Performance Index Sub-Account	NA	- Segment Cap Rate can be different for each Segment under an Index Sub-account. Crediting Rate to Segment = (a) x (b) + (c)	Index Account which earns interest at Segment Maturity Date based on performance of underlying Index* (S&P 500° Index, S&P 500
		(a) = Annual Point-to-Point Change in Index Value, subject to floor & cap rates Name	Sharial Index)
Loyalty Bonus/ Persistency Bonus	Loyalty Bonus: 0.35% p.a (Year 11 to Age 100) This is guaranteed and applicable on both Fixed and Index Accounts.	Loyalty Bonus: 0.35% p.a (Year 11 to Age 100) This is guaranteed and applicable on both Fixed and Index Accounts.	Persistency Bonus: 1.00% p.a. starting from the later of Policy Year 11 or Insured's Age 65 until Insured's Age 121
Minimum Surrender Value (MSV)	Minimum Account Value: - Applicable and determined using a fixed 2.00% crediting rate on net premiums paid, regardless of the premium allocation between Fixed and Index Accounts, and any crediting rates (including the loyalty bonus crediting rate) earned by Fixed Account and Index Accounts, less all applicable monthly charges Will not increase the amounts available for withdrawals and loans Any transactions or changes made to the policy that affects the actual Account Value such as partial withdrawals, claims or change in fees and charges will also apply to MAV Minimum Surrender Value: - Applicable and determined as the Minimum Account Value less any applicable surrender charge - Minimum Surrender Value less any amount the policyholder owes Singlife at the time of full surrender is payable if it is higher than the Account Value less surrender charge (if any).	Minimum Surrender Value: - Applicable and determined using a fixed 2.00% crediting rate every year, regardless of the performance of the Fixed and Index Accounts, is payable upon full surrender if it is higher than the policy value less surrender charge - Guaranteed Loyalty Bonus is not applicable for MSV.	Minimum Surrender Value: - Applicable and upon a full surrender, the policy never earns less than 2.00% p.a. on a cumulative basis regardless of the allocation between Fixed Account and Index Account in this policy.
Partial Withdrawals	Allowed once after first Policy year, subject to following conditions:	Flexibilities/Others Allowed once per policy month after the 1st policy year except when the policy is in lapse	Allowed any time after the Free-look Period, subject to the terms of the policy contract.
		Pending status Withdrawal is taken in the following sequence: 1. Fixed Account 2. Master Holding Segment 3. Individual Holding Segment; and 4. Index Account (proportionally from all segments) on a pro-rata basis	Partial withdrawals and applicable Surrender Charges will reduce the Sum Assured. The reduced Sum Assured cannot be lower than the minimum Sum Assured.
Penalty-free Withdrawal	incurring a Surrender Charge or without reducing the Face Amount.	Surrender Charge or without reducing the Face Amount.	Starting from Policy Year 6, up to 10% of the Account Value can be withdrawn per Policy Year, without incurring a Surrender Charge or without reducing the SA.
		Any unused Penalty Free Withdrawal Limit will expire by the end of policy year and cannot be carried forward to next policy year.	

Cash Value Enhancement (CVE) Option/ Surrender Charge Waiver	NA .	Available and enhances surrender value by waiving a portion of the surrender charge for the first 12 policy years.	Available which waives a percentage of the policy's surrender charge at full surrender during first 6 policy years.
		Must be added before policy is issued and applicable during	Endorsement must be elected at policy issue and requires an additional 0.2% premium charge in policy years 1-6.
		- Full surrender - Lapse processing	
		Requires an additional 1.5% premium charge during first 12 years. Kindly refer to 'Fees & Charges' tab for premium
