8. FINANCIAL UNDERWRITING

Heirloom

Signature Wealth

Signature Life

Signature IUL Select

Financial underwriting is the process of evaluating financial and non-medical facts to ensure that the face amount applied for is appropriate for your clients' need for insurance. It protects the interests of the proposed insured and the financial health of our company. It allows us to be able to maintain competitive premium rates by minimizing anti-selection, eliminating fraudulent claims, and reducing the number of early lapses that contribute to additional costs. Financial underwriting is based on the purpose of insurance, or the basis of the sale and the purpose determines how the maximum coverage (all insurers) is calculated.

The components the underwriter takes into consideration in financial underwriting include:

Insurable interest

Fundamental to ensuring that the insurance applied for makes economic sense is the concept of insurable interest. Insurable interest exists when the owner (if other than the insured)/beneficiary will suffer a financial loss or fail to make a gain if the insured dies. Insurable interest is a legal requirement for there to be a contract.

Purpose of insurance

The amount of coverage requested must be justified in relation to the purpose (loss) for the insurance requested.

Total line

In determining whether the coverage applied for is justified, the underwriter will consider the total amount of insurance in

force with all carriers and being placed in relation to need and financial circumstances. The current amount applied for may appear to be reasonable but when added to existing coverage it may be evidence of anti-selection or speculation.

Ability to pay

The underwriter must determine if the applicant (payor) can afford to pay the premiums for the requested coverage now and during the life of the contract.

Maximum USD 10 million of Total Planned Premiums per life. Above USD 10 million is subject to Individual Consideration.

- # Total Planned Premium for a Regular Plan means Annual Premium x no. of premium paying years. E.g. A \$200,000 annual premium x 5 years = Total Planned Premium of \$1 million. This can be applied to Signature Legacy Growth regular premium version.
- # Total Planned Premium for a Single Premium means the Single Premium amount. This can be applied to Signature Income, Signature Lifetime Reward, Signature Legacy Growth Single Premium version and Signature Indexed Income Single Premium version.
- # Total Planned Premium for a Multi-pay Premium plan. If the total planned premium is 1 million, regardless of how many multi-pay intended, we consider \$1 million for aggregation purpose. This can be applied to Signature Indexed Income which has multi-pay feature.

For calculation of Sum Assured (Net Sum at Risk) capacity, we utilise the following formula:

- a) 10% of premium for Signature Income and Signature Lifetime Rewards. For \$1 m Single Premium, sum assured is \$100,000.
- b) 12% for Signature Legacy Growth Single Premium and 65% of Annual Premium for Signature Legacy Growth
- For a Single Premium of \$1 m, sum assured is \$120,000

- For a 5-year Regular Premium of \$200,000, the sum assured is \$200,000 x 65%, hence sum assured is \$130,000. c) 25% of Total Planned Premium of Signature Indexed Income regardless of Single Premium or Multi-Pay feature.

Buying a life insurance policy is a long-term commitment. If you end the policy early, it usually involves high costs, and any cash-in value (also known as surrender value) may be less than the total premiums you have paid. This brochure is for general information only and does not take account of your specific investment aims, financial situation, and any of your particular needs. You should get advice from a financial adviser before making a commitment to buy the plan. If you choose not to get advice from a financial adviser, you should consider carefully whether this plan is suitable for you. This brochure is not a contract of insurance and is not an offer or recommendation to buy the plan. The specific details which apply to this insurance plan are set out in the policy contract.

The policy is protected under the Policy Owners' Protection Scheme, which is administered by the Singapore Deposit Insurance Corporation (SDIC). Coverage for your policy is automatic and no further action is required from you. For more information on the types of benefits that are covered under the scheme as well as the limits of the coverage, where applicable, please contact Manulife (Singapore) Pte. Ltd. or visit the Life Insurance Association or SDIC websites (www.lia.org.sg or www.sdic.org.sg).
